

Aquaglide

Plunge™ Slide

Description Double-wide slide for Platinum™ trampolines and bouncers.

Specifications 94”L x 60”W x 60”H

Add some ‘splash’ to your bounce with the Platinum Plunge™ slide. Designed to fit Aquaglide SuperTramps™, the Plunge™ also fits other tramps with 35” to 40” tube diameters (including most major manufacturers). Double-wide 60” sliding surface adds to the fun. Heavy Duty molded handles ensure a solid start. Connects using straps integrated with Interloc™ system (included).

Plunge™ Functional Features

Slide

Incorporates a sliding feature.

Capture the essence of the aquapark experience! Few things are more fun than whooshing into the water on a Platinum™ slide.

Plunge™ Slide Features

Duratex™

Commercial grade fabric reinforced PVC material.

Ideally suited for watersports, Duratex™ material is the finest, commercial grade fabric reinforced PVC available. Each Aquaglide Platinum item uses Duratex™ material for maximum strength and durability. The Plunge™ incorporates 500d fabric fused with layers of 28 oz PVC.

RF Weld™

Radio frequency welded seams for high quality and outstanding durability.

‘RF’ or Radio Frequency Welding is the process used to fuse DuraTex™ material seams for years of trouble-free use. RF welding produces clean, strong seams with no unsightly glue marks or splits.

HD Grip™

Incorporates heavy duty molded handles for convenient boarding and/or transport.

Heavy Duty molded handles allow for convenient boarding and/ or transport. The Plunge™ includes 3 molded boarding handles.

Interloc™

Heavy duty stainless fittings and convenient Interloc straps for modular use.

Aquaglide Platinum items connect to one another using the Interloc™ system. Soft webbing offers some flexibility, while remaining tough enough for years of service. Only Interloc™ blends the convenience of a cinch with the security of a locking connection.

3 Year

Limited Warranty against any and all manufacturing defects.

Info: Each Aquaglide Platinum™ item offers a warranty covering any and all manufacturing defects for an extended period of time. The Plunge™ includes a 3 Year warranty for recreational use.

UV Block™ Materials specially treated for high resistance to the sun’s damaging rays.

Each Aquaglide Platinum item is treated with UV Block™, the highest grade 3-year UV coating available. While we recommend periodic maintenance with additional UV coatings, there is no substitute for having UV Block™ incorporated into the material right from the start. UV Block™, for years of trouble-free use.
