

Aquaglide

Rockit™

Description Round Platinum™ rocker for up to 8 people.

Specifications 14'L x 14'W x 5.5'H

Although it's not an alien spaceship, the Rockit is guaranteed to provide at least as much entertainment. This versatile, circular water rocker offers unlimited fun for up to 8 people. Stand or sit in several different ways. Work together, or in factions to balance, roll it and rockit!

Rockit™ Functional Features

Rock

Incorporates a rocking feature.

Build teamwork and add endless excitement on this teeter totter for the water.

Balance

Incorporates a balance feature.

Build balance skills! This balance feature adds endless excitement to your Platinum™ aquapark.

Rockit™ Technical Features

Duratex™

Commercial grade fabric reinforced PVC material.

Ideally suited for watersports, Duratex™ material is the finest, commercial grade fabric reinforced PVC available. Each Aquaglide Platinum item uses Duratex™ material for maximum strength and durability. The Rockit™ incorporates 1000d fabric fused with layers of 28 oz PVC.

HA Weld™

Hot air-welded seams for high quality and outstanding durability.

'HA' or Hot Air Welding is the process used to fuse Duratex™ material seams for years of trouble-free use. HA welding produces clean, strong seams with no unsightly glue marks or splits.

UP Grip™

Incorporates convenient climbing handles.

Convenient climbing handles allow for boarding and/or climbing while staying out of the way for other activities. The Rockit™ provides a wide assortment of soft, yet durable handles for boarding and stability while rocking.

Interloc™

Heavy duty stainless fittings and convenient Interloc straps for modular use.

Aquaglide Platinum items connect to one another using the Interloc™ system. Soft webbing offers some flexibility, while remaining tough enough for years of service. Only Interloc™ blends the convenience of a cinch with the security of a locking connection.

3 Year

Limited Warranty against any and all manufacturing defects.

Each Aquaglide Platinum™ item offers a warranty covering any and all manufacturing defects for an extended period of time. The Rockit™ includes a 3 Year warranty for recreational use, a 1 year warranty for commercial use.

UV Block™ Materials specially treated for high resistance to the sun's damaging rays.

Each Aquaglide Platinum item is treated with UV Block™, the highest grade 3-year UV coating available. While we recommend periodic maintenance with additional UV coatings, there is no substitute for having UV Block™ incorporated into the material right from the start. UV Block™, for years of trouble-free use.
